DETAILED ACTION

1. The Amendment filed by Applicant on 06/29/2009 has been entered and IDS filed by Applicant on 06/29/2009 has been entered.

Response to Amendment/Arguments

2. Applicant's amendment and arguments filed on 06/29/2009 have been fully considered and they are found persuasive.

3. The rejection of claims 1-10 under 35 U.S.C. 102(b) as being anticipated by Sugiyama et al., U.S. Patent No. 6,166,125 (hereinafter "Sugiyama") is withdrawn.

4. The rejection of claims 11-17 under 35 U.S.C. 103(a) as being unpatentable over Sugiyama in combination with Komoriya et al., U.S. Patent No. 7,060,771 (hereinafter "Komoriya") is withdrawn.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1796

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

6. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

7. Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sugiyama et al., U.S. Patent No. 6,166,125 (hereinafter "Sugiyama") in combination with Dexter et al., U.S. Patent No. 3,156,689 (hereinafter "Dexter"). Sugiyama teaches a graded-refractive-index optical plastic material comprising a fluorine-containing polymer and at least one fluorine containing polycyclic compound. See Sugiyama, Abstract; col. 2, line 37 through col. 3, line 36; col. 5, lines 15-25. Sugiyama further teaches a polymerizable composition for producing an optical

member comprising a polymerizable monomer, an initiator and a compound of present formula (1a). See Sugiyama, Example 2. Sugiyama further teaches the optical fiber by drawing an optical member. See Sugiyama, Examples 14-17. Sugiyama does not teach formula (1a). Dexter teaches in analogous a compound of Formula (1a). See Dexter, Abstract; col. 10, line 40 through col. 11, line 32 (R is an non-substituted alkyl group). In recently decided KSR Int'l Co. v. Teleflex, Inc., the Supreme Court unanimously stated "the combination of familiar elements according to known methods is likely to be obvious when it does no more than yield predictable result." In view of Dexter, one having an ordinary skill in the art would be motivated to modify Sugiyama by using a compound of Formula (1a) because both references are directed at polymer compositions containing material for plastic optical fibers and optical wavelengths. Such modification would be obvious because one would expect that the use of fluoro containing monomers as taught by Sugiyama would be similarly useful and applicable to the compounds taught in Dexter.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is

reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

9. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
